Donation Party.

Miss Lena Bright has completed her residence on Water street, and tells The Record that on Friday, the 6th, she will have a donation party. All friends will call between the hours of 3 and 10 that evening, bringing anything they see proper, from a tin cup to a load of coal.

The Circus.

A big crowd, as usual, came in to see the circus yesterday. The show is above the average, and a performance is given that is well worth the small price of admission. The tents were pitched on Minor's mill lot, (back of the old Stormes place) and the big tents well crowded the space. The show is the cleanest that has been here for many years.

Former Lancaster Girl Wins.

The annual elocutionary contest at Stanford was witnessed by a large crowd, and enjoyed very much. The first prize was won by Miss Marie Griffin, whose subject was "Golden Curls." The prize was a handsome set of silver candleabra, worth \$25.

Miss Griffin is a daughter of Mr. Jas. W. Griffin, and formerly resided in this city. Miss Deveraux, of Winchester, was given second prize.

I have for sale one half interest in a 20-horse power saw mill, with Atlas Engine and Boiler and Gaar Scott mill with double saw 60 and 30 inch, also a 10-horse power Gaar Scott traction engine and Huber Separator, and a 6-horse power Star portable engine, and an 18 inch French Burr corn mill with corn and meal elevator—all in first-class order, and guarantee same as well. Terms made to suit buyer.

LESLIE T. BRADSHAW.

It's Just This Way.

We are frequently asked the question, "What about the railroad?" We will sum up the answer in a few words. It's this: The county stands ready to construct the road when Garrard county gives them the right of way (all the rest is secured.) About half the amount was subscribed, and nothing further has been done. Those in position to push the matter, are resting on their oars. Danville is after the road hot and heavy, and her people are leaving no stone unturned to get it. This is the case in a nut shell.

Crops About Stone.

A friend of The Record sends in the following from Stone, this county: The crops are all looking unusually well. There is a good acreage of corn and tobacco. The wheat crop is good. The farmers are all busy harvesting. There are four binders and one draper busy in this neighborhood, and all the cradles they can get. The harvest hands are paid from \$1 to \$2 per day. There have been some horses worked so hard in the binders that some have died, and some work hands have fallen in the field from the heat. Mr. E. E. Miles has been around gathering up the lambs that he had engaged some time ago. He gathered up one hundred and thirty in this neighborhood that averaged eighty pounds. He paid 51 cents per pound and was well pleased with them. Stock is generally doing well and looking well. Grass is good and stock water plentiful.

Hemp is growing out, and looking better than was expected a few weeks ago. There is a fine prospect for a large fruit crop. Better than has been for years.

Visit Joe Nicklass' shaving parlor.

Buy Banner Bread, fresh every day, at Blue Grass Grocery.

The Record hopes to give in next issue a half-tone cut of the handsome new Cemetery gates, together with description of same.

Watch for the perilous blind-folded carriage drive, mind-reading test, Friday, at 7:30. A committee of your most reputable citizens will be selected to hide an article, and the Professor will mount the carriage and drive as fast as the horses can run and locate the article. Admission, 10, 20 and 30 cents.

Death of Mrs. Duerson.

After a lingering illness, Mrs. Duerson, nee Miss Jennie May Arnold, died on last Friday night. She was a daughter of Mr. Clay Arnold, and in her sixteenth year. Mrs. Duerson was a Christian woman, and beloved by all who knew her. Funeral services were held at the residence Monday afternoon, the interment taking place at the Lancaster Cemetery.

The family have the deepest sympathy of their many friends in this great bereavement. Mrs. Duerson was the fourth sister to die within as many years.

Crops In The West.

Mr. H. A. B. Marksburg, wrote to a number of Western postmasters regarding the wheat outlook. The two following replies about cover the many received:

Verndale, Minn., 6-23-00.

Not quite so bad as yet as your slip indicates, but without rain within a week's time everything in small grain line will be gone. H. M. Henderson, P. M.

Hillsboro, N. D., 6-22-00.

Don't believe crop will average over 4 or 5 bushels to an acre in this locality, possibly not if we get rain pretty soon. O. Howars, P. M.

Will Close At Nine O'clock

The local druggists have entered into an agreement to close their stores every night, except Saturday, at nine o'clock. This is a very wise move, as they have been compelled to keep open from six in the morning until ten and eleven at night. It is unreasonable to expect these long hours, and the work on the druggists is entirely too severe. They all cheerfully come to their stores at any hour of the night in case of emergency. There is no class of business men who do more favors and receive less thanks than do country druggists (except newspaper men, of course). There is no other class of business men in the world who are expected to work sixteen to seventeen hours a day. Under the new arrangements, the local pill rollers will have a chance to become better acquainted with their families, at least

Hay Press.

I will run my hay press again this season. Have your hay baled now, before bad weather sets in. Call on, or address, S. H. ESTES, Lancaster, [7-26]

A gang of little negroes hang about the street curbs and kick up a racket all day. Capt. White says he is in ten cents to assist in exterminating them, and he doesn't care what means of doing so is resorted to.

Death of Rev. Mr. Crow.

Rev. Dr. William Crow, one of the oldest and most widely known Presbyterian ministers in central Kentucky, died at Richmond last week of paralysis of the brain. He was born in Fleming county, and was in his seventieth year. The remains were brought through this city and taken to Danville.

Hypnotism.

The Leon company of hypnotists were at the Opera House Friday, Saturday and Monday nights. Many marvelous feats were performed, and much amusement furnished the audiences. Saturday night, a lady traveling with them, was put to sleep, placed in a show window and remained asleep until Monday night at eight o'clock. It is claimed that this is the only woman who has ever undergone a forty-eight hour sleep. She attracted much attention in the window, a motely crowd of loafers and sight-seekers standing about all day Sunday and Monday.

The Bloomer Girls.

The above named aggregation arrived in Lancaster in their special car, and Tuesday afternoon played a game of base ball with a team made up of local young men. Some anticipated seeing a slow, sham leaf of a game, but the girls soon showed the spectators, and especially their opponents, that they understood their business. Maude, the Bloomers' little pitcher, had speed and curves that completely bewildered the Lancaster players, and kept them guessing from start to finish. The girls remained in their car, and conducted themselves in a perfectly decorous manner. They have traveled all over the country, and make good money. The score was 15 to 14 in favor of Lancaster.

Democratic Convention.

Pursuant to a call of the Democratic Executive State Committee of Kentucky, held at Frankfort, May 24, 1900, all the members being present in person or by proxy, it is hereby ordered that on Saturday, July 14, 1900, at 2 o'clock p. m., standard time; there shall be held at each voting precinct in Garrard county, at the usual voting places, a precinct convention for the purpose of appointing delegates to the County Convention to be held at the Court House in Lancaster, Ky., Monday, July 16, 1900, which shall in turn appoint delegates to the State convention to be held in Lexington on Thursday, July 19, to nominate a candidate for governor, to be voted for at the November election, 1900. All democrats are requested to attend.

The following precincts are allowed the following number of delegates to the County Convention: Court House, 4; West Park, 2; East Park, 3; Old Paint Lick, 2; Union School House, 2; West Bryantsville, 3; East Bryantsville, 3; Walker's School house, 2; Buckeye, 2. G. T. FARRIS, Chm.

SPECIAL RATES

For Chautauqua and Special Train Service, July 4th.

On account of the Lexington Chautauqua Assembly, the Chesapeake and Ohio Railway will sell round trip tickets to Lexington at low rates from all stations between Brighton and Ashland, Ky., inc., from June 25th, to July 6th, limited to return until July 8.

On July 4th, an especially attractive and interesting program has been arranged for the entire day. At night a celebrated Magician will exhibit wonderful feats of Magic, a tribe of native Africans will sing and dance in their native costumes and the evening entertainment will close with a large number of Vitagraph moving pictures of scenes in the late Boer war.

To enable every one to spend the entire Fourth in Lexington, a special train will leave Lexington at 10:30 p. m., for Winchester, Mt. Sterling and intermediate points. Make your arrangements to visit Lexington on the Fourth of July.

Go to J. A. Beazley for a new and beautiful line of wall paper.

We always give our customers full value for their money, and resort to no catch-penny methods of drawing people to our store. Good value at reasonable prices will win every time. J. JOSEPH.

In our rounds for items, a gentleman said "News is as scarce as genuine Christians," and we see wherein he is about right. Those who have anything to do are hustling while the sun shines, and those who have no work know nothing till it goes in print.

Wheat Wanted.

As agent for a reliable firm, I will pay the highest market price for wheat. I will engage a few choice crops now (if seen at once) to be delivered at threshing time.

Tom Adams.

Bryantsville, Ky.

A Cantata.

The beautiful cantata, "Snow White," will be given July 19th. The best home talent will take part, and every effort will be used to make the entertainment the best ever given. Those who will take part are requested to meet at the W. C. T. U. room Monday, July 2nd. Prices of admission will be 15, 25 and 35 cents.

Attention Farmers.

We take pleasure in gratifying the farmers of Garrard county, that as usual we will be in the market for wheat, and will buy at all stations on the Rowland Branch L. & N. railroad, and will see that our friends and customers get top prices for their wheat. So make no promises to anyone, but be independent and remember your friends before selling, and see us. We have storage room for 20,000 bushels of wheat, and rate of storage will be reasonable. We also will keep on hand new sacks to sell farmers at cost, should they want to hold their wheat.

Your Friends,

Court Day.

Monday was the dulllest and "shortest" court day ever experienced in Lancaster. The farmers were all busy and remained at home attending to their thousand and one duties.

We are now clearing out our stocks and will make great reductions in order to have none left over. We had much rather sell at actual cost than have anything left over from season to season. We will not work off old goods on our customers. Come and see what we are doing.

To Quit Business.

The firm of Fuller & Symson has decided to retire from the grocery business, and in this issue of The Record announce their intention to close out at cost. Here is a splendid opportunity to secure some good bargains. Messrs. Fuller & Symson are good business men and clever gentlemen, who have made many friends during their stay in Lancaster. The Record regrets their decision, but wishes them unbounded success in their new field of labor.

Death of G. Jones Salter. A telegram was received by Lancaster relatives Tuesday announcing the death of G. Jones Salter, which occurred at his home in Kensett, Arkansas. His brother, Capt. Mike Salter, had recently received a letter stating that he was ill, but nothing serious was anticipated. Mr. Salter was born and reared in Lancaster, and married the eldest daughter of Mr. W. A. Yantis, who, with several children survive him. He was a big-hearted, upright man, who made friends of all with whom he became acquainted. He was railroad agent at Kensett, a position of importance. Garrard county friends deeply sympathize with the family in their bereavement.

In the July McClure's appears a sketch of Bryan, by the well known Kansas journalist, William Allen White, author of "Doyle Stories." This is the first of a series of pen portraits of political celebrities by a writer particularly well qualified to write of both their public and private life. The article contains a shrewd estimate of Bryan's political career and throws much light on the cause of his popularity.

Dowry at Hopkinsville, an infuriated husband shot a preacher, whom he was satisfied had been disturbing the domestic relations of his household. Preachers can act the rascal as cunningly as the rest of mankind, and when one does start in that direction he is the blindest-blindest rascal to be found. Women who are inclined to err, trust a sky-pilot quicker than anyone else, as they know the man of cloth can not afford to "peach."

It's amusing to hear party leaders tell of how much money "the other side" has to use in a campaign. Each party spends every dollar they can lay hands on, and in some instances as much as is in "using" it. It takes the cold cash, and plenty of it, to run a campaign, and the party who has none stands about as much showing in the outcome as would a one-legged man at a pants kicking.

AFTER a rest of several months, the festive politician is now ready to extend the glad hand to the "dear people" and tell what he don't know about how the government should be run. Its surprising how many men, who know how affairs of state should be managed, are content to stay out

J. P. Rogers sold a horse to Lat Anderson for \$40.

E. P. Woods bought 104 lambs from Bird Matheny for \$410.

J. F. Payne bought a male colt from J. L. Anderson for \$12.50.

Harvesting is about over, and wheat is reported very good in this vicinity.

J. J. Thompson bought about forty stock hogs from Brown & Cress for four cents.

J. B. Hutchins will commence his school at Harmon's Lick the second day of July.

Mr. W. B. Bennett, of Williamsburg, was here last week looking after his farm.

Wm. Elmore, of Williamsburg, passed here last week with 275 sheep for the Lancaster market.

J. C. Fox bought eight steers from B. F. Ledford for \$32.50 per head; also one from J. C. Horton for \$34.

John W. Cummins, the census reporter from this place is done taking the list, and it goes without saying, it is well done.

The camp meeting will commence here the 11th of July, at night, conducted by Rev. H. B. Cockrell and others. Lunch will be served on the ground at reasonable rates, all who desire can bring their tents or wagons and remain on the ground during the meeting. Mr. Editor, you and family are cordially invited to attend and dine with your humble servant.

J. L. Anderson and wife, and F. E. Cummins and wife, were visiting relatives in Garrard county, Sunday.

Mrs. George King was visiting Mrs. W. B. Moss in Lancaster, Monday.

Charlie Hayden, of Louisville, is at home for a few days. Lute King and family were visiting home folks here Sunday.

John Blankenship, of Livingston, was visiting his father's family last week. Lissy Harber, who has been in Indiana for the summer has returned home.

... Pine and hemlock stumps and old logs that were supposed to have become worthless years ago are being gathered in northern Michigan to be manufactured into laths.

The immense orchards in Platte county, Missouri, which usually yield enormous crops of apples, will not produce one-fourth of a crop this year, on account of the canker worms having been at work upon the trees.

The demand for harvest hands in Kansas is so great that the section hands on some of the railroads are giving up their jobs at \$1.25 a day to go into the fields and work for \$2 a day.

Wheat has been in a state of wild excitement on the Chicago market the past week. Unfavorable reports from the north-western wheat fields raised the price from day to day. Corn advanced too, though not so far in proportion.

A sale of 150,000 pounds of butter was made in one lump at Kansas City. It was packed in large, white sugar barrels, 350 pounds to the barrel, which were lined with parchment paper. There were 430 barrels.

The objection of wood charcoal in feeding poultry is that it has no food taste about it, and they do not relish it as well; hence, it is usually best to burn some kind of grain like corn, wheat or rye. Put it into an oven and cook a good brown and then feed.

We have always maintained that the best pursuit for the small farmer was egg production, and yet we are aware that there is something to be made on early fries. These sell readily, when in good condition, at from 2c to 5c each, and their cost for feed to July is very small.

The Texas Stockman says: "It is a long time since the cattle business has been in such a flourishing condition as at present, both as to prices and the excellent condition of the range and the very large calf crop. All cattlemen are feeling good and are in shape to hold their stuff for stiff figures."

J. B. Haggin, the millionaire stock breeder, has bought of Geo. H. Whitney Melrose stock farm, near Lexington, containing 1,230 acres. The reported price is \$115,700 cash, over \$94 per acre. Mr. Haggin will build a \$100,000 house on Elmendorf, one of several large tracts of land near Lexington that he owns.

The stability of a country depends on well-kept grass and meadow lands. More attention should be given to the growing of grass, especially in breeding and selection. Overpasturing deteriorates the pasture and it runs out; it is filled with weeds. What to do with the ranges of the west, which have been greatly injured by overstocking, is a serious problem, and is national in its scope. The ranges will never again return to their former condition unless a different system is followed.

The railroads as well as the dealers at Chattanooga are preparing for the shipment of the largest peach crop ever raised in that region. Officers of the Fruit Growers' Association say that from seven to eight cars of peaches will be shipped from this point for several weeks during the season. Local growers there have been notified that only fruit of the very best quality will find a market, and even of the choice fruit there will be an enormous yield.

If you are troubled with that most uncomfortable disease called piles, don't neglect it. Don't let the complaint get a firm hold. Every day the disease is neglected it grows worse. Commence at once to use TABLET'S BUCKEYE PILE OINTMENT, the relief is immediate, and cure infallible. Price, 50 cents in bottles. Tubes, 75 cents. C. C. & J. E. Stormes.

Who the Boxers Are.
The Chicago Times-Herald, in a lengthy article on the Boxers, whose term originated, their country and their present contention, has this to say:

The present internal disturbances in China are due to the resistance to foreign aggressions offered by the society of the "Great Knife." This society is called in English the "Boxers." The membership is supposed to exceed 100,000. The position of the Boxers is analogous to what that of the people of the United States would be to Germany, France, Russia and other foreign powers, with little show of right save that supported by might, sought to construct railroads and quasi-public works in this country, and in doing so overturned and trampled upon all private rights of the people. A strong public sentiment exists in China against the foreign depredation of the kingdom now in progress. The effort to dismember China by foreign Powers promises to be the international tragedy of the twentieth century.

The "Boxers" Society is a secret organization, supposedly encouraged by the ruling Chinese dynasty, and has for its principal object the driving of all foreigners out of the empire. There is some reason for believing that certain foreign Powers are secretly abetting the disturbances in the hope that pretext for a conflict with the empire may be afforded, and under that thin excuse dismemberment be hastened. The Chinese race has an antiquity of at least 6,000 years.

A Card of Thanks.
I wish to say that I feel under lasting obligations for what Chamberlain's Cough Remedy has done for our family. We have used it in so many cases of coughs, lung troubles and whooping cough, and it has always given the most perfect satisfaction, we feel greatly indebted to the manufacturers of this remedy and wish them to please accept our hearty thanks.—Respectfully, Mrs. S. Dotd, Des Moines, Iowa. For sale by R. E. McRoberts.

Underfeeding is expensive, overfeeding is unprofitable.

Ten days after the hens are cooped up with a cockerel the eggs will hatch true to the mating.

One way of making poultry most profitable is in always having something to sell.

A new worm has appeared in Texas that is helping the farmers by destroying the army worm.

The cotton acreage this year will be the largest on record and will not fall far short of 20,000,000 acres.

1200 hogheads of tobacco were shipped from Paducah to Europe. The draft in payment was \$114,632.

The aging of timber, which formerly required long storage, is now completed by electricity in a few hours.

W. B. Jarvis has a good stock Polangus bull calf six months old, for sale.

In poultry-keeping, as in many other lines of farming, it is a good plan to profit more or less by the experience of others.

Among the cotton manufacturing States North Carolina is sixth in the number of spindles and fifth in the number of looms.

Harrodsburg Democrat:—M. T. Benny, near Ruckerville, is experimenting in the cultivation of mustard. He has a patch of about six acres now in bloom, and the crop promises to yield a handsome profit.

I have on hand 600 mountain ewes will sell on time or for cash or place them in good hands or shares, can furnish good Southdown bucks with them.

The ranges will never again return to their former condition unless a different system is followed.

Question Answered.
Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grand mothers' never thought of using anything else for indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system and that is all they took when feeling dull and bad with headaches and 1c aches. You only need a few doses of Green's August Flower, in liquid form to make you satisfied there is nothing serious the matter with you. For sale by C. C. & J. E. Stormes.

At home a woman should be guided in her manner of dressing by an even greater desiring to please than elsewhere. Where Thousands of Papers are Read

There is, perhaps, but a single place in this country where almost all the newspapers of the United States are read. To the Exchange Bureau of The Ladies' Home Journal practically every paper in this country comes—an aggregate of nearly 9,000. It is the rule to read each one within a day after it is received, so large a staff of trained readers is kept employed constantly. By this plan it is possible for the editors to keep in close touch with the reading public, and accurately informed as to the topics that are uppermost in the public mind in every section of the country. In this reading, such selections are made as may be of special immediate interest, as well as matter for future reference and notes that may serve as memoranda or suggest articles. Moreover, everything relating to the Journal is clipped and filed. Thousands of dollars a year are spent in this work alone, but Editor Bok regards it as a very profitable investment, as invaluable information is thus supplied that could be obtained in no other way.

A woman in Idaho got a divorce from her husband because he would not take her to the Paris Exposition. He testified in court that he was afraid of water and that he was afraid to get into a bath tub even, he got so seasick. That man has indigestion just as a good many others we know and should take Dr. Caldwell's Syrup Pepsin. Get it at McRoberts Drug Store. 1m.

Cleaning Wallpaper.

Many house wives will be glad to hear of a means of cleaning wall-paper without injury to its gloss or general effect. Take four ounces of pumice stone in fine powdered form and mix it with one quart of flour. When this has been thoroughly done with the hands add enough water to knead the mass into a thick dough. Form the dough into several rolls about as long as width of each strip of wall-paper and two inches in diameter. Wrap some white cotton cloth around each roll and stretch it into place; then boil about three quarters of an hour. In that time the dough rolls are firm and the covering can be removed. Rub the soiled paper with the rolls. Not only will ordinary dirt spots be removed, but grease will be absorbed by them.

Volcanic Eruptions.

Receipt for Happiness.

If you would increase your happiness and prolong your life, forget your neighbor's faults. Forget the slander you have ever heard. Forget the temptations. Forget the fruit fling and give a little thought to the cause which provoked it. Forget the peculiarities of your friends, and only remember the good points, which make you fond of them. Forget all personal quarrels or histories you may have heard by accident, which if repeated, would seem a thousand times worse than they are. Blot out as far as possible all the disagreeables of life, they will come, but they will grow larger when you remember them and the constant thought of the acts of meanness, or worse still, malice will only tend to make you more familiar with them. Obliterate everything disagreeable from yesterday, start out with a clean sheet for today and write upon it, for sweet memory's sake; only those things which are lovely and lovable.

Story of a Slave.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. Goe D Williams of Manchester, Mich., tells how such a slave was made free. This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by R. E. McRoberts, Drugist. 1m

Don't think for a minute that because a man has done you a favor, he is under everlasting obligations to you.

Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on said at first it was a slight strain and would soon be well, but it grew worse and the doctor then said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one-half of a 50-cent bottle cured me entirely. I now recommend it to my friends.—F. A. Babcock, Erie, Pa. It is for sale by R. E. McRoberts drugist. 1m

BLOOD POISON

Effective of all diseases, as it vitates and corrupts the entire system. Little red pimples on the body, mouth and throat become sore, the blood spouts appear, and hair and eyebrows fall out. These are the signs of blood poisoning, finally attacking the vital organs; the body is covered with offensive eating sores.

Highly contagious that if innocent person handling the same articles as the diseased person, may be inoculated with the virus. It can be transmitted the same disease or in a modified form - like Eczema or Scrofula.

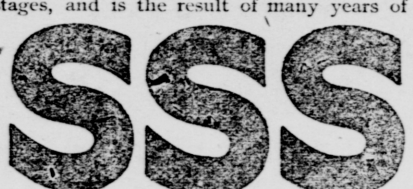

Skin trouble appearing in middle life, is due and traceable to blood poisoning. Many have taken potash and mercury faithfully for two or three years, but were not, for these poisonous minerals never cure this disease; they are doing its work on the inside, and will show up again sooner or later.

It is the same old taint, but it is S. S. S. has cured thousands of cases of blood poisoning, and it will cure you. It is the only purely vegetable blood purifier known, and for this reason, S. S. S. cleanses the blood thoroughly of every particle of the virus of the disease.

Would Not Suffer So Again for Fifty

Times Its Price.

I awoke last night with severe pains

in my stomach. I never felt so badly

in all my life. When I came down to

work this morning I felt so weak I

could hardly work. I went to Miller

& McCurdy's drug store and they re-

commended Chamberlain's Colic, Chol-

era and Diarrhoea Remedy. It work-

ed like magic and one dose fixed me

all right. It certainly is the finest

thing I ever used for stomach trouble.

I shall not be without it in my home

hereafter, for I should not care to en-

dure the sufferings of last night again

for fifty times its price. - G. H. Wilson
